

## SPECIFICATION SHEET

|                                   |                                                                                                                                                       |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog number:</b>            | GAS-406-01                                                                                                                                            |
| <b>Product description:</b>       | T3-BSA Antigen                                                                                                                                        |
| <b>Lot:</b>                       |                                                                                                                                                       |
| <b>Source:</b>                    | Chemical Synthesis                                                                                                                                    |
| <b>Format:</b>                    | Clear liquid                                                                                                                                          |
| <b>Purification:</b>              | Affinity and Ion Exchange Chromatography                                                                                                              |
| <b>Concentration:</b>             | mg/ml                                                                                                                                                 |
| <b>Protein Purity:</b>            | >95% (SDS-PAGE)                                                                                                                                       |
| <b>Buffer:</b>                    | 0.01M pH7.4 PBS                                                                                                                                       |
| <b>Preservative:</b>              | 0.05% Proclin300                                                                                                                                      |
| <b>Storage:</b>                   | Stored at 2-8°C short term, -20°C or colder long term.<br>Avoid multiple freeze/thaw cycles.                                                          |
| <b>Application/Notes:</b>         | ELISA、CLIA、Lateral Flow. This antibody can be used as the detection antigen in a competitive EIA and pairs with SLS-406-01 as the capture antibody.   |
| <b>Expiration date:</b>           | 3 Years                                                                                                                                               |
| <b>Hazard/Biohazard:</b>          | There is no known biohazard associated with this product.                                                                                             |
| <b>Supplementary information:</b> | This product is only for the in vitro study, not intended for diagnostic use, please according to the laboratory standard operating procedures using. |
